

The sixth magazine of the TV series “Step by Step”

The topic of the sixth magazine is the elimination of obstacles for equal inclusion of persons with disabilities in the society.

The first story comes from Pirot:

Why have Suzana and Slobodan, together with other disabled persons from the Pirot District, decided to become journalists and how can their local self-government contribute to the equality in informing of the public?

The second story is from Belgrade:

The medical school “Belgrade” has made possible its blind and sight impaired students to use computers by opening its department for information and technology for them and other persons with sight impairment from this city. Moreover, this school has provided its former blind student with the opportunity to work as a tutor for computers.

The third story comes from Novi Sad:

Members of the choir “Ison” come to their choir rehearsals using the footpath for blind and sight impaired persons, or ramps for wheelchairs. The choir is comprised of children with various disabilities, together with their parents and professors, as well as all others who want to sing along.
